Art Unit: 1652

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 7-19, drawn to an antibody, a hybridoma producing the antibody, a method of detecting a kinase by using the antibody and a diagnostic kit comprising the antibody, classified in class 435, subclass 7.4 and 356 and class 530, subclass 387.9.
- II. Claims 20-23, drawn to a bioassay for assessing candidate drugs, classified in class 435, subclass 15.
- III. Claims 20-23, drawn to a bioassay for assessing ligands of a kinase or subunit, classified in class 435, subclass 15.
- IV. Claim 24, drawn to a selective inhibitor of a kinase, classified in many classes and subclasses depending upon the identity of the inhibitor.
- V. Claims 25-26, drawn to a treatment of a disease comprising administering an inhibitor of a kinase, classified in many classes and subclasses depending upon the identity of the inhibitor.

The inventions are distinct, each from the other because:

The antibody of Group I, the bioassay of Groups II and III and the inhibitor of Group IV are unrelated and are patentably distinct.

Inventions IV and V are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process such as inhibiting the activity of the kinase, unrelated to any disease treatment.

It is noted that the IDS filed 3/25/04, in addition to PTO-1449 and PTO/SB/08B, there are included 3 pages of PTO-892. This is not a form that can be used by applicants to cite prior art and includes no place for the examiner's initials or signature. Therefore, if applicants wish the reference included on these PTO-892s considered by the examiner, they should submit them on a PTO-1449.
